Performance

Suprabeam torches incorporate the latest high performance LED Power-chips available, delivering constant maximum output when it's needed. Our specially designed Thermal Management systems ensure, efficient power consumption and long life operation.

Efficiency

Our patented Hyperfocus™ Lens/Reflector technology provides the user with greater control and visible light output, compared to other systems. This technology ensures all our torches produce the highest light output by utilizing a high efficiency aluminium reflector and Hyperfocus™ lens system.

All components are manufactured and tested to the highest standards, which is backed by a 5 year full product warranty. Suprabeam warrants its products to be free from defects in materials and workmanship. Any product or part which is found to be defective under normal use will be repaired or replaced.

THE BONE™ CREEPERS & STOOLS

The Bone™ and Bonester™ feature a uniquely shaped body which cradles the user between the wheels only an inch or so above the ground. The big, easy rolling wheels are positioned outboard to provide a strong, stable working platform that can't tip or flip the user. The large diameter wheels roll easily over all sorts of obstacles such as cords and air lines.

A one of a kind brush system

Unlike other sweeping brush devices, Haaga sweepers rely on there patented disk brush technology. These two specially made circular brushes cut under the waste material and whisk it directly into the waste container. The coarse or fine debris is not run over or pushed around in front of the sweeper.
